

Tuesday, 14 January 2014

As a supplier of external graphic design services to Optimum, I have found the company a pleasure to work with. Project plans are well documented and time lined before going into action and staff communications with myself and collaborative suppliers is efficient. Projects are able to progress with a speed and accuracy rarely experienced within companies today.

Thank you Optimum Learning Technologies for your efficiency, time management skills and outcomes expectations management. A great company to work with - highly recommend .

Yours sincerely

Vivienne du Preez
